4 - Coordinates of image c.pgm in terms of the principal component basis

1206.254 -1590.133 -248.136 -821.249 246.009 -771.900 963.633 376.967 161.599 -533.276

Eigenface images for 4.3:

Partial reconstructions (4.4, from mean to mean + 10 components):

4.6:

Eigenfaces in the calculated basis:

partial reconstructions of c.pgm (from mean to mean + 6 components)
